Definition of “Collateral Assignment”: A collateral assignment is the assignment of a policy to a creditor as security for a debt. Under a collateral assignment, the creditor is entitled to be reimbursed out of policy proceeds for the amount owing to him or her; the beneficiary is entitled to any excess of policy proceeds over the amount due the creditor in the event of the insured’s death. The Assignee has a right to verify the status of the assignment, the paid to date of the insurance, the amount of coverage in force and if other assignees are on the coverage. As an assignee, they cannot change the address or the coverage or many of the other rights that ownership has.

Please note: It will be the Owner’s responsibility to have the Assignee release their interest in the said policy, by providing a Assignee signed Release of Assignment to Great-West Financial, once interest has been terminated.
